

POWERclient

The POWERClient Appliance is a workstation built on current best of breed computer hardware. This appliance can be used both as a Management Client or Vending Client, in the Ultima Revenue management platform offer, or as a Web client or Rich POS client in the enabled offer.

The appliance is shipped with Microsoft Windows as the standard operating system, based latest available version.

POWERClient is a bundled offer and ships with a receipt printer when used as a point of sale, and a GSM modem for remote or a backup connection to the system host server. These accessories can be specified as optional if requested. No printer is supplied when configured as a management or web client, but a desktop printer is offered as an optional extra.

Conlog supplies only tried and test hardware guaranteed to be compatible with the systems supplied by us. Our customers have the flexibility to customize the appliance as per their requirements together with the assistance of our expert Engineers.

The POWERclient hardware is supported by the standard manufacturer warranty, which can be extended if requested.

We see a world where we can all achieve more while using less

We help utilities maximise their service delivery

Our products, solutions and services are simple, efficient and innovative
