

Conlog provides many Solution's targeted towards Business enablement. These products, although not directly associated with prepayment, offers Utilities solutions to issues related management of a prepayment site.

Due Conlog's wealth of experience in the Industry, and strategic partnerships, we are able to offer our POWERConsult services. Conlog will deploy to site professional consultants to customize solutions such as POWERInformatics, a Business intelligence tool that can be integrated into any data source available to provide single dashboard with a view of the entire business, or POWERTask, which is a workflow system that can be fully customized to support any business process in our customer's environment. Infrastructure design and Disaster planning hardware and solutions also for part of our POWERConsult umbrella.

POWERConsult is a premiere service provided by Conlog, that will ensure expert professionals are within the grasp of our customers for any Solution that requires special consultation.

**We see a world where we can all achieve more while using less**

**We help utilities maximise their service delivery**

**Our products, solutions and services are simple, efficient and innovative**
